

The New Diamant is now more elegant than ever before. Its strong aluminium body, combined with clean lines and high-class design elements provides not only a truly impressive appearance, but also high-performance features which bring more value to your business while maintaining a superior in-cup quality.

Thanks to the perfect balance between the state of the art technology and the finest espresso tradition, we have designed a second to none professional coffee machine which meets the highest barista standards together with the requirements of the very demanding coffee drinking market.
